# **SITUATION SUMMARY**

## **Cal EOC Incident – 2014 Drought**

- SOC / Inland REOC remains activated in support of 2014 Drought
- [Tuolumne County has submitted a Resolution continuing their local emergency due to drought.](#)

## **Magnitude 5.1 Earthquake, La Habra, Orange County**

On 03/28/2014 at 2109 hours, the California State Warning Center was advised that a verified magnitude 5.1 earthquake occurred 2 miles east of La Habra in Orange County.

- On 03/29/14 at 1432 hours, a verified 4.1 magnitude (initially verified at 4.5 magnitude) aftershock occurred 20 miles southeast of Los Angeles. Per Los Angeles and Orange County Warning Points, there is no report of any damage or injuries.
- Please see Southern California Significant Events slides for detailed information.

## **Washington Mudslide Incident**

### **Cal OES 2014-FIRE-2588:**

- **FEMA US&R Activation Order # 2014-0001a**

On 03/24/14, the Warning Center received FEMA US&R Activation Orders for 17 California US&R Task Force Members from the White Incident Support Team (IST).

# **SITUATION SUMMARY**

## **Washington Mudslide Incident (Cont.)**

### **Cal OES 2014-FIRE-2588: (Cont.)**

- **FEMA US&R TF-7 Activation Order # 2014-0004**

On 04/02/14, the Warning Center received an initial and amended FEMA US&R Activation Orders for California US&R TF-7 Sacramento Urban Search & Rescue consisting of 70 Personnel and 10 Ground Support Personnel. The Task Force is currently en route with Cal OES Assistant Chief Len Chesmore deployed as an agency representative.

- **FEMA US&R Activation Order # 2014-0005**

On 04/02/14, the Warning Center received an initial FEMA US&R Activation Order for 20 personnel of the White Incident Support Team which included 1 member from CA TF-5.

### **EMAC Deployment - 683-REQA-2711-0**

Cal OES Law Branch Assistant Chief Mark Baldwin is deployed under an EMAC agreement acting as liaison for Human Remains Detection Dog resources from California.

### **Cal OES 2014-LAW-2652**

Assistant Chief Mark Baldwin has arrived at a staging area established for this operation. The first of the dog teams has arrived. Four additional dog teams are expected to arrive later this evening. These five teams should be available for assignments beginning the morning of 4/3/2014. An additional seven teams are expected to arrive sometime on 4/3/2014 and are expected to be available for assignment beginning the morning of 4/4/2014.

# **SITUATION SUMMARY**

## **Washington Mudslide Incident (Cont.)**

### **Situation Overview:**

Search and rescue operations are continuing, with more than 620 (No Change) responders in the field and 72 overhead staff on scene, including National, State and local Urban Search and Rescue teams and other federal, state, mutual aid and regional technical rescue volunteers. More than 14 (no change) search dog teams are on scene.

# Key Points

04/03/2014 – 04/10/2014

## Thursday-Friday

- Showers & mountain snow (mainly Northern California)

## Saturday-Wednesday

- Mostly dry and warmer; above normal temperatures
- Offshore winds developing Southern California beginning Sunday; increasing fire danger

\*\*\*See attached Cal OES Weekly Weather Briefing\*\*\*

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

The interior will see another frosty night tonight. Clouds will increase on Thursday ahead of a weak front. This system will bring some spotty light rain Thursday night into Friday morning, followed by some clearing for most of northwest California. Expect a warming and drying trend this weekend into next week as high pressure returns.

#### **San Francisco Weather:**

A weak storm system will move across the area Thursday night into Friday and bring light precipitation to the region. Dry conditions return for the upcoming weekend and a significant warming trend can be expected early next week as high pressure builds across the west coast.

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY**

#### **Sacramento Weather:**

Scattered mountain showers will taper off by late this evening. A brief period of drier weather is expected for early Thursday before a relatively weak weather system moves through the region. The main portion of the system will move in late Thursday night through Friday bringing a chance of showers to much of the area. Impact is expected to be limited. Drier and warmer weather is expected for the weekend and into next week.

#### **Hanford Weather:**

Upper level high pressure will build into the area trough Thursday before another weak front pushes through mostly north of Fresno Friday. High pressure will again build over the area over the weekend and provide for a warming and drying trend.

## **WEATHER SYNOPSIS BY REGION: (Con't)**

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

Scattered showers will taper off this evening. Warm and dry on Thursday and through the weekend except for a slight chance of light rain north of point conception and northern mountain slopes on Friday. A strong ridge of high pressure and weak offshore flow next week will likely bring hot and dry conditions to much of the region.

#### **Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

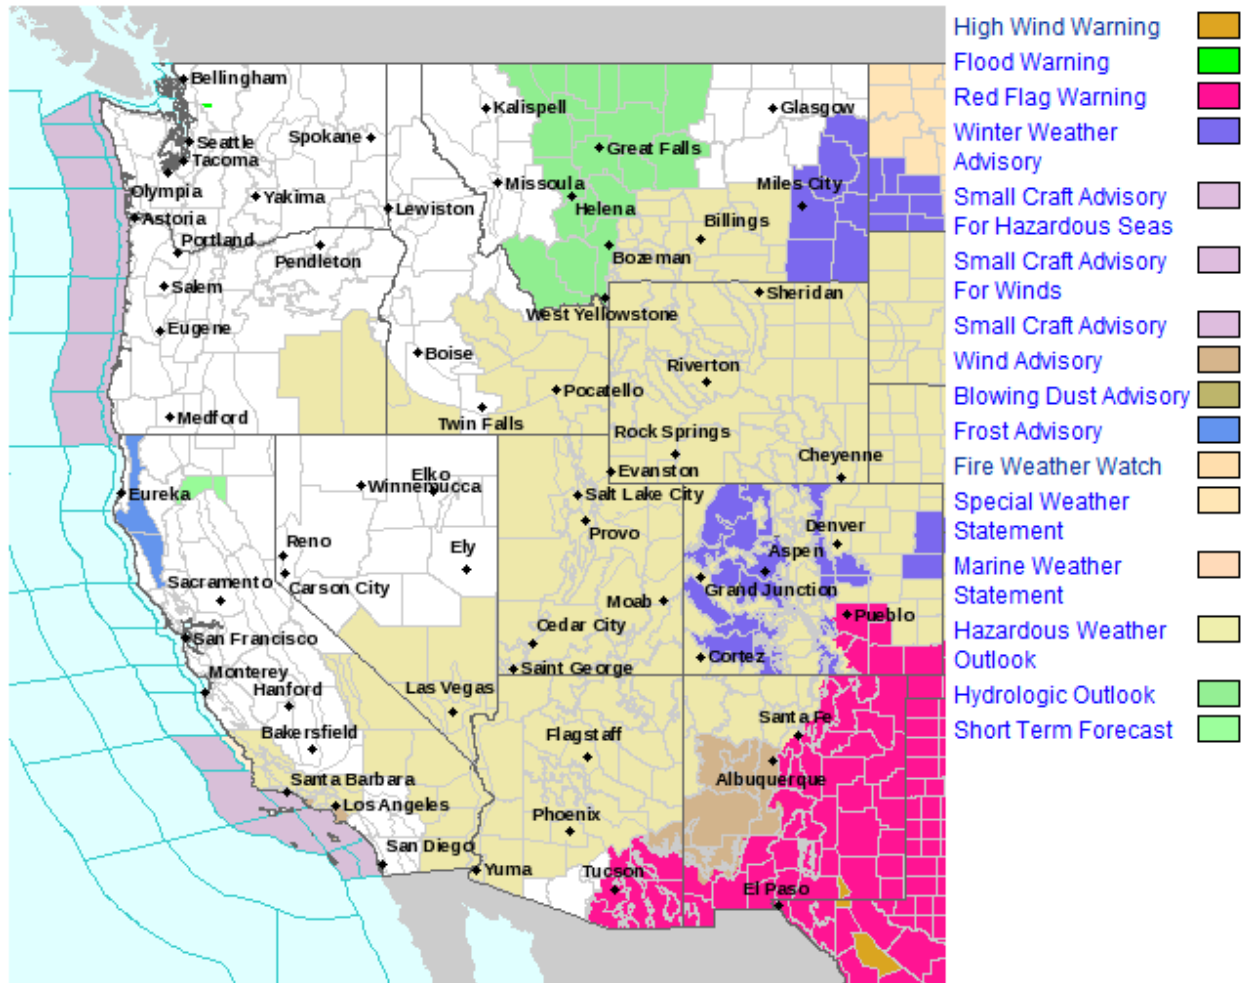

The earlier system will move out tonight leaving fair weather but with variable clouds into Saturday. A big warming trend will arrive next week with fewer clouds as high pressure builds over the region. Breezy offshore winds and low relative humidity values will be possible with conditions beginning to improve on Wednesday.

#### **Southeast California Weather:**

Scattered showers and isolated thunderstorms will end overnight. No operationally significant weather is expected on Thursday then precipitation chances will increase and clouds will lower over the Sierra Nevada and southern great basin Thursday night and Friday.

# **CAL OES ACTIVATIONS**

## **Cal EOC Incident – 2014 Drought**

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

# **SIGNIFICANT EVENTS / ACTIVITY**

## **Southern California**

### **Magnitude 5.1 Earthquake, La Habra, Orange County**

#### **Per the Cal OES Earthquake and Tsunami Program Manager:**

- John Parrish, State Geologist, California Geological Survey, advised that the temblors were "east-west trending" suggesting the activity was occurring on the Puente Hills fault, which is a blind thrust fault.
- Per Egill Hauksson, CISN Southern California Seismic Center (SCSC), the M4.1 earthquake that occurred at 1432 Hours on 3/29/14 is an aftershock of the M5.1 event that occurred at 2109 Hours on 3/28/2014. It is located at the very north-east end of the aftershock zone at a depth of 7.2 km. This development indicates growth of the aftershock zone to the northeast.
- CISN SCSC advised as of 1822 hours Saturday, March 29th, 2014, the total number of events in the sequence so far is 2 foreshocks, 1 mainshock (M5.1), and 137 aftershocks (ranging from M1.0-M4.4). The total number of events large enough to have been felt is 27, which includes the foreshock (M3.6), the mainshock (M5.1), and the aftershocks (ranging between M1.1-M4.4). The sequence is very closely on target for mean expected aftershock rates in California. Projecting forwards gives a 2% chance of a larger aftershock from this point over the next 7 days, and a 3% chance for such an event over the next year.

## **SIGNIFICANT EVENTS / ACTIVITY**

### **Southern California (Cont.)**

#### **Magnitude 5.1 Earthquake, La Habra, Orange County (Cont.)**

**Per the Cal OES Southern Region, the Operational Area provided the following Situation Status:**

Orange County is currently collecting Initial Damage Estimates to establish the case for a local proclamation and whether or not a State or Federal proclamation would be warranted. Local jurisdictions are continuing to perform inspections.

Currently no Cities have proclaimed.

#### **Infrastructure**

##### **Schools:**

- Fanning Elementary School in Brea was closed on 03/31/14 due to fallen light fixtures and ceiling tiles in some classrooms. Per Operational Area Conference Call at 1100 hours on 03/31/14, the ceiling tiles that fell contained asbestos and repair costs may be 250 thousand to 1 million dollars.
- Some portions of Fanning Elementary School in Brea will be closed up to 6 months due to fallen light fixtures and ceiling tiles containing asbestos. Some students will be diverted to neighboring schools.

##### **Transportation:**

- Per Joint Forces Training Base Los Alamitos, two taxiways are closed at the airfield due to cracks in the tarmac as a result of the quake. Engineers will inspect the surface next week and the closure does not interfere with normal airfield operations.

## SIGNIFICANT EVENTS / ACTIVITY

### Southern California (Cont.)

#### **FEMA US&R Activation Order # 2014-0005**

On 04/02/14, the Warning Center received an initial FEMA US&R Activation Order for 20 personnel of the White Incident Support Team which included 1 member from CA TF-5. The California State Warning Center provided the Activation Orders to the Task Force dispatch center and the Cal OES Fire Duty Officer.

White IST Members from the following US&R Task Forces have been activated:

- CA- TF 5: 1 Personnel

# Situational Summary

Information as of 4/2/14

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

Another storm moved across Northern California on Monday and Tuesday, with low-pressure conditions creating additional storms through Wednesday. Storms will move east beyond California between Wednesday and Friday as a high pressure, dry system builds over the region.

As our state's rainy season nears its end, much of California has received only about half of normal precipitation for this rainy season. Heavy rain and snow would have to fall throughout California most days in April to reach average annual rain and snowfall levels, which is highly unlikely. Even with such precipitation, California would remain in drought conditions, due to low water supplies in reservoirs from the two previous dry years.

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

# Situational Summary (cont'd)

Information as of 4/2/14

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The most recent snowpack survey, conducted on February 27, recorded California snowpack at 24% of normal. The next snowpack survey will be conducted April 1. A more recent update using automated devices shows snowpack at 29% of normal as of March 30.
- DWR has announced that water essential for health and safety will be delivered through the state water project in spite of the zero allocation policy. Deliveries will be boosted if storms produce enough rain and snow to increase reservoir storage and the snow pack.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

# CAL OES MISSIONS

## Ongoing Cal OES Missions

- **2014-LAW-2652 Current:** Assistant Chief Mark Baldwin has arrived at a staging area established for this operation. The first of the dog teams assigned should arrive at the scene by 1600 hours. Four additional dog teams are expected to arrive later this evening. These five teams should be available for assignments beginning the morning of 4/3/2014. An additional seven teams are expected to arrive sometime on 4/2/2014 and are expected to be available for assignment beginning the morning of 4/3/2014.

**Situation:** The Washington National Guard, in their capacity as the Search and Rescue Coordinator for the State of Washington, requested Human Remains Detection dogs to assist in the search for victims of a mudslide near the town of Oso Washington. The Cal OES Search Dog Coordinator identified 12 dog teams from throughout California to respond. The teams, along with a Cal OES Law Branch Assistant Chief Mark Baldwin acting as liaison, were tasked for the mission.

- **2014-FIRE-2588** Cal OES Fire Branch has opened a mission to coordinate and track Urban Search and Rescue (US&R) personnel assigned and deployed in support of response and recovery efforts due to a large landslide that occurred on 3/22/14 in Oso, Snohomish County, Washington State.

## Ongoing Cal OES Missions (Cont.)

- **2014-FIRE-2548** CAL FIRE request for an aircraft and aircrews with fuel tenders to support the annual joint CNG, MHEM/AAML Training at the CAL FIRE Academy from 04/04/14 to 04/06/14 . All costs incurred for CNG personnel, fuel, equipment, and assets will be assumed by CNG.
- **2014-LAW-2483** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the IRL Racing Event at Sonoma Raceway August 22-24, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2481** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NHRA Racing Event at Sonoma Raceway July 25-27, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2478** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NASCAR Racing Event at Sonoma Raceway June 20-22. They will assist with advanced planning and be pre-positioned prior to the start of the event.

## Ongoing Cal OES Missions (Cont.)

- **2014-LAW-2450** Santa Barbara County Sheriff's Department is requesting ten Search and Rescue personnel that are EMS certified to assist with a special event. Resource will be needed from 1100 hours till Midnight on April 8, 2014. San Luis Obispo County Sheriff's Department will be responding with requested resources.
- **2014-LAW-2307** Per USFWS, The mission has been postponed to Monday, March 10, with a backup date of March 11. They will provide a disposition at the conclusion of the mission. California Department of Fish and Wildlife (DFW) has requested California Air National Guard to assist in the movement of equipment and fuel between Farallon National Wildlife Refuge and the mainland. Approximately 3-4 sorties are expected with an HH-60G helicopter any one day between 2/24-28/2014 or before 3/15/2014. After receiving the official letter of request from USFWS on behalf of the California DFW, Cal OES LDO has changed the target date of the mission to 2/27/14, the county to Marin as Stinson Beach was Identified as the primary staging area and the resource to an HH-60.
- **2014-SOC-2111** Mission is to test the Cascadia Subduction Zone (CSZ) air bridge concept by air transporting 7 passengers from OES and 1 CANG logistics planner on 13 May 2014 from Mather to the State Staging Area (SA) in Redding, to one POD in Del Norte and one POD in Humboldt, to the Redding State SA, and return to Mather. Passengers will discuss actions at the Redding SA and at each OA POD while they are at each location. The air bridge is a critical component to CSZ response and recovery. It is imperative this concept is tested to ensure response teams can be successfully transported into the effected region and the affected Operational Areas' are able to receive aircraft at designated PODs.

## Closed Cal OES Missions

- **2014-LAW-2648 Current:** Victim located alive and well at about 2030 hours on 4/1. Cal OES Telecommunication resources have returned to Mather HQ.  
**Situation:** Nevada County Sheriff's Office (SO) requesting SAR resources to assist in locating a missing person (MP) that was last seen snowboarding in the Castle Peak area at 1550 hours. Cal OES Law Duty Officer is coordinating resources. On 04/01/14 at about 0115 the two snow mobile riders were located alive and well. One subject still outstanding. **Mission Closed**

## **UPCOMING EVENTS, TRAINING, EXERCISES**

### **Diablo Canyon Power Plant, Rehearsal / Full Scale Exercise**

Diablo Canyon Power Plant in San Luis Obispo will be hosting two full scale Hostile Action Based exercises this Spring. A dress rehearsal exercise will be held on April 16, 2014 and a FEMA evaluated exercise will held on May 21, 2014. This is part of the required biennial demonstration of our ability to protect the public from a radiological incident at the nuclear power plant.

**Mission:**

We protect lives and property, build capabilities, and support our communities for a resilient California.

*We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.*
